

OCSH

Shelf for OCM5 optical component modules

The OCSH is a mechanical shelf assembly that accommodates OCM5 type of modules in a rack or cabinet environment.

The shelf is typically used in 19" active racks or data racks, but is also compatible with Tyco Electronics FIST racks and cabinets.

The OCSH-I unit has the following features:

- Can be front or back mounted in the rack
- Occupies 3 height units (19" standard)
- Allows the storage of 6 modules
- Front access to the modules
- Pigtails enter and leave the shelf via the left or right
- A cover including identification label is provided
- An optional repair facility for damaged pigtails is available.

The OCSH-L unit has the following features:

- Can be back mounted in the rack or cabinet
- Occupies 4 height units (19" standard)
- Allows the storage of up to 18 modules
- Front access to the modules
- Pigtails can enter the shelf at the left or right (when turned upside down).
